## WEST CANADIAN COLLIERIES, OF BLAIRMORE, ONE OF BIG- GEST INDUSTRIES IN CANADA

Spend Quarter of Million Dollars on Buildings, etc.  
--Output of Coal Increasing--Affairs of  
Company Well Managed

### JUST ERECTED IMMENSE PLANT AT BLAIRMORE

Great Future in Store for Company--Quantity of  
High-Grade Steam Coal Almost Unlimited  
--Blairmore's Future Is Assured

The West Canadian Collieries, Limited, who are probably the second largest individual coal land owners in Canada between Nova Scotia and Vancouver and who are operating three coal mines in The Pass (one at Blairmore, where the head office of the Company is; another at Bellevue and another at Lillooet), all of which are surrounded by almost unlimited quantities of high-grade steam coal, are determined to hold one of the foremost places in the commercial and business enterprises on this continent. In view of all this, the Company has just completed many big and expensive improvements, involving about a quarter of a million dollars, a considerable portion of which have been expended just recently on their Blairmore plant.

At this place a tipple, capable of handling from 1,200 to 1,500 tons of coal in 24 hours, is most complete and up-to-date in every way and can produce four grades of coal, viz: slack, mine run, screen and special lump. It comprises a Phillips' dumper, screens, picking tables and hoppers for the various graded products as well as the rock and refuse which is taken from the picking tables.

The Company has just finished a power plant, including a 75 K.W. alternator powerful enough to run the mine machinery and supply all electric light required in the tunnels and outside the mine besides that which is needed in the Company's houses and office buildings.

The West Canadian Collieries have at present under contemplation a compressed air haulage system in its Blairmore mines. This will greatly increase the output.

Development work was started at the Blairmore mines only a little over a year ago, but so well have those operations been carried on and so well have the affairs of the Company been managed by shrewd and intelligent business men, that to-day the Company is in a position to ship at least 800 tons of coal per day, which with a little further mine development can be easily increased to 1,000 tons per day. The coal is of excellent steam quality, and we can safely predict a great future for the town of Blairmore when this industry is running to its full capacity.

### C. of E. Social

The ladies of the Blairmore Anglican church gave a successful concert and social in the Mercantile hall on Friday evening last. The hall was crowded and the receipts were large. A lengthy programme was well rendered by the best talent in the Pass.

The programme was as follows: Professor Solo, Mr. Williams; Song, Mrs. S. J. Murray; Violin Solo, Miss Winona Howard; Song, R. Green; Coronet Solo, F. O. Smart; Song, E. Allison; Comic Song, R. McGowan; Step Dance, D. G. Houston; Pianoforte Solo, Miss Williams; Song, R. Green; Song, Miss Cunningham; Coronet Solo, F. O. Smart; Comic Song, R. McGowan.

We refrain from making distinction but merely say that all those who took part in the programme did their part in a very creditable manner.

After the items on the programme had been gone through, tempting and delicious things which had been provided by the ladies for the satisfaction of the inner man, were well and freely partaken off.

The affair wound up with a dance and it was not until the wee hours of the morning that all returned home after enjoying a very pleasant evening. The receipts which amounted to over one hundred dollars will go towards purchasing a lot on which to erect a church.

Advertise in the ENTERPRISE and quick results are sure.

## DR. CHOWN AT FRANK

Officiates at Re-Opening  
of First Knox Meth-  
odist Church

### RECORD ATTENDANCES

Frank Highly Honored in  
Having such Disting-  
guished Visitor

The re-opening services of Knox Methodist church, at Frank, were held September 4th, 1910, and will long be remembered in the history of Frank. The Rev. S. D. Chown, D. D., who was at the recent conference held at Victoria, elected to the exalted position of general superintendent of the Methodist Church, officiated.

The congregations were record breakers in the history of the church. In the morning Dr Chown was assisted by Rev. J. E. Rogers of Bellevue, and the pastor of the church, Rev. F. S. McColl.

The Sunday school in the afternoon was a great success. Exercises were conducted by George Pattinson, the superintendent of the school. Splendid and inspiring addresses were delivered by the Rev. T. M. Murray, of Coleman, and the Rev. Dr. Chown.

Besides these buildings there have also been erected at the Blairmore mine, office and warehouse, boiler house, powder magazine and necessary buildings for the coal mining plant.

The Company has also installed an all-steel Fairbank's railway car weighing scale. A considerable amount of grading for their new railway tracks for the accommodation of their entries and loads has just been completed. These tracks can at present hold fifty cars but when necessity demands it, they can be increased to almost any capacity.

The West Canadian Collieries have at present under contemplation a compressed air haulage system in its Blairmore mines. This will greatly increase the output.

Development work was started at the Blairmore mines only a little over a year ago, but so well

have those operations been carried on and so well have the affairs of the Company been managed by shrewd and intelligent business men, that to-day the Company is in a position to ship at least 800 tons of coal per day, which with a little further mine development can be easily increased to 1,000 tons per day. The coal is of excellent steam quality, and we can safely predict a great future for the town of Blairmore when this industry is running to its full capacity.

The offerings for the day were generous and gratifying to the trustees of the church.

The church and town of Frank

have been highly honored by the

visit of the general superintendent, Dr. Chown.

The evening service exceeded the

utmost expectation of the members.

Following The Very Rev. Dr. Chown in a masterly style. He dealt first with the white slavery

of men in prison, secondly with

the white slavery of labor and

lastly with the white slavery of women.

The choir rendered splendid and

efficient service. Solos were given

by Mrs. Lee and R. McGowan

which were much appreciated by

the large audiences.

The offerings for the day were

generous and gratifying to the

trustees of the church.

The church and town of Frank

have been highly honored by the

visit of the general superintendent,

Dr. Chown.

The Brief History of the First

Knox Methodist Church

In the fall of 1900 Rev. H. R.

Grant, then of Plover Creek,

prospected the Crow's Nest Park with a

view to the establishment of a mis-

sion station. At the February meet-

ing of the Calgary Presbytery in

1901 it was reported the condition of

this locality and it was decided to

send in a man. The Rev. Mr.

McKeichie was the man selected to

break the ground. He made Blair-

more his headquarters for a time.

Frank was now developing rapidly

and was becoming the more impor-

tant place.

Early in September, 1901, the late

Dr. Robertson visited the field. He

was favorably impressed with the

town and its prospects. Upon re-

ceiving assurance of liberal assist-

ance from the coal company, he

decided that a church should be

built in Frank. The Church &

Manse board gave a loan of \$1,000,

and the contract was let for the

building of the church on November

14th, 1901. Many delays occurred

before the building was ready for use.

In the meantime the church had met

in bunk houses and, finally, in

Chamber's hall.

The Rev. Mr. McKeichie left the

field in the fall of 1901 and was fol-

lowed by Rev. D. A. Stewart who

continued in charge until June, 1902.

The Presbytery of Calgary deter-

mined that an ordained man was

needed and so the church was

organized.

### Frank Notes

The Tattoo Alarm Clocks you buy at \$2.50, may be had at SOMERTON BROS. for \$2.00.

Mrs. J. W. Gresham has been on the sick list since Sunday, and is still at Blairmore.

SOMERTON BROS. have an excellent line of Cut Glass and a fine selection of Souvenir Spoons, engraved to order.

Mrs. A. M. McColl and daughter Vina, of Blackfoot, Idaho, spent last week in Frank with Rev. F. S. McCall.

Clark put on pictures of the fight between Jack Johnson and Tommy Burns Monday night at the Miner's Hall, and a full house greeted them.

Engagement Rings set with Diamonds, Emeralds and Sapphires are kept in good selections at SOMERTON'S, and anything you want in a Wedding Ring.

Dr. Ross, of Hillcrest, was in town on Monday ascertaining Dr. McKay in performing several critical surgical operations. We learn that the patients are all doing well.

Work on the new Catholic church is being rushed and the building has already taken on its official shape. The site is the most commanding in town, the building being situated on a hill some two hundred feet above and to the rear of the big Gobo residence, and is surrounded by ample land which will be grazed up so as to add to the beauty of the church and surroundings.

This town has been honored by a visit from the Rev. Dr. Chown, D. D., general superintendent of the Western division of the Methodist church of Canada. Dr. Chown officiated at the re-opening services of Knox Church, and his message were heard by large congregations, who had gathered to feast from the eloquence of their venerable orator and father of the church.

withdrawn from Coleman and Blairmore. Rev. T. M. Murray sent to Coleman to take charge of the institutional church which had just been erected and where he has since labored with such signal success, leaving Rev. J. B. Francis in charge of Knox church and the adjoining villages.

Following the pastorale of Rev. J. B. Francis, Rev. H. Haddon came to the Frank mission, and during his time negotiations for the purchase of Knox church by the Methodist body from the Presbyterians were entered into. The Presbyterians agreed to sell the church property, including church, manse, stable, and two lots for \$1,200 and release of interest in the Union hall and parsonage shack in Blairmore but no definite action was taken.

Following the ministry of Rev. H. Haddon, Rev. T. M. Taylor occupied the field for a year. At this time three points—Frank, Bellevue and Hillcrest—were worked.

In 1909 Rev. T. D. Jones was stationed by conference at Frank, the field being divided into three points.

In June, 1910, the conference divided the old Frank mission into two—Frank and Bellevue. Rev. T. D. Jones was stationed at Bellevue the most promising point where very effective work had been rendered by him the preceding year.

The work in Frank had been of

### Bellevue Notes

Mrs. J. Baynor has returned from a visit to friends in Spokane.

A fine horse, owned by McLean Bros., Hillcrest, was so cut up by barbed wire some few days ago that the animal had to be shot.

Miss Katie Hart is leaving here shortly for Edmonton to re-enter college, after an enjoyable vacation with her parents in Bellevue.

Canvey's livery barn seems to be the popular hive of business these days, and their good service will surely reward them with success.

Clark's moving pictures were crackerjacks last week, and the hall was packed. The cowboy features elicited roars of applause and seemed to be the best yet.

A large building is being erected, adjoining Gaynor's store, which is intended to be a boarding and rooming house. It is said that the house will be run by a Chinaman, who has been hotel cook in the Pass for some years.

The location for the new railway station is approved by all. It will be much easier of access from the Bellevue side, and we feel proud that our long tried endurance has seen its desires materially rewarded.

At the Bellevue Athletic Club's basket social last week the highest price paid for a basket was \$20.50 and the lowest \$1.50. Mrs. J. J. Walter had the honor of holding the highest "fletcher," and Mr. C. Emerson had the honor of purchasing the \$1.50 prize.

such a discouraging nature that the committee in charge of the old church would be advisable to discontinue the work at this point unless there was a marked improvement. Rev. F. Stanley McCall was sent to take charge of the Frank mission for the summer.

WE SEE that Rev. Mr. McCall arrived upon the scene to find the building in a dilapidated condition, and the old church with a heavy debt upon it in a neglected condition. He with his characteristic energy called the officials of the church together, discussed the situation with them and arranged a plan that he brought outright from the Presbyterians, and in addition that it should be palleted and reroofed.

Negotiations were entered into with the Rev. T. M. Murray, of Coleman, for the purchase of the Presbyterian church, which had just been erected and where he has since labored with such signal success, leaving Rev. J. B. Francis in charge of Knox church and the adjoining villages.

Following the pastorale of Rev. J. B. Francis, Rev. H. Haddon came to the Frank mission, and during his time negotiations for the purchase of Knox church by the Methodist body from the Presbyterians were entered into.

The Presbyterians agreed to sell the church property, including church, manse, stable, and two lots for \$1,200 and release of interest in the Union hall and parsonage shack in Blairmore but no definite action was taken.

## NATURAL HISTORY.

Wherein is Related a Tale of a Farmer and a Possum.

## PLAYS DEAD WHILE HANGING.

Only Way to Kill Him is to Beat Him to a Jolly—One the Soldiers Let Go Poems and Poetry Tell a Lot About the Animal That Bluffs.

By M. QUAD.

(Copyright, 1918, by Associated Literary

A possum he lived in a tree.

And a jolly old fellow was he.

Took a walk, and a walk he'd take.

Which is the best way, don't you see?

WHAT is called the Virginia possum is found in almost every middle and southern state. It is a small animal, often catching sight of fence posts and woodchucks by which it gets a squat at a possum. The animal hardly ever moves out by day, and at night he is very shy. He makes his nest in a hollow tree, but sometimes the tree is a trunk of a tree, and he makes it well. It is a poor runner and not much of a fighter, though if he gets his teeth into a dog he will hang on until killed. It is owing to this grip of his jaws

"BUT POSSUM HE PLATED."

that the fox, the coon and the "chuck" give him half—the path when they meet at night. Any one of them can roll him over, but so tough is his hide that they might chew on him for a hour without hurting him.

Near by lived a fox, a coon, a possum, a bear, and he went every night.

He was looking for scraps.

With the fox he was a partner.

With the dog he set up a fight.

The possum does not wander far from his lair. This is because he is like no other animal in his eating. He will eat fowl, young rabbits, insects, worms, and the like. He will eat all sorts, scraps from the table, mice, bugs and almost everything else you can think of. He can therefore get his living around any farm. If living near a marsh he will feed on crabs and frogs; if there are snakes, he will eat them. A fight often takes place between a possum and a black-snake, but the former is always the winner. It is said that the bite of a rattlesnake will not poison him. In gathering fruit from trees he will climb a tree to get his tail and uses his forefoot to gather with. He can eat more persimmons than any three colored men, but when it comes to the watermelon he doesn't care for it.

He'd pick up a chick now and then or strangle a frog or two.

He was after the best.

And the dog with him.

Betwixt him and his den.

The two oddest things about the possum is the way he uses his tail to hang by and his "playing dead" when attacked or captured. If the animal is shot to death, or if he is dead, the animal will remain quiet for hours and then get up and walk off. To actually kill him with a club he must be beaten to a jelly. He has a hide on him like a bull and has few nerves to feel pain. He is the most worthless animal after man. He is destined to be dead, and he will come to life again and make for his tree.

There were nights in the full of the moon when no one motions for a coon.

And the dog with him.

Around houses and stumps.

And all over the land.

Naturalists used to assert that when the mother possum had a litter of five the old man turned to and ate up three of them so as to keep the number down where all could make a good living. This has not been found to be correct. As the old man is the father of children papa takes his departure and finds another boarding house for himself. They may live or die, but it's nothing to him. It is only at such times that if he meets another daddy he will get up, roar, and roar, and roar, the best and the most. He's more about it, you see; thinks two in the family enough.

Three times he was caught in a trap. And over the head got a rap.

And living he stayed.

As wicked as he was from his nature.

In the fall of '98 he never years ago a possum would struck fifteen times with a baseball bat in the hands of a strong man. He was dead, and was watched for ten hours, and then started down the ladder went away for half an hour. Upon his return—no possum! The next day the animal was as lively as if he had not been captured. During the civil war some Union soldiers captured a possum in

Virginia and let him eat his tail over a bush. He was closely guarded for three days and was still "all there" when the boys let him go.

At length "comes the farmer who said:

"I'll catch him once more."

And so he did, and again,

He shot him, and again,

When a fox or coon finds he is discovered at his game and is chased by the dog two or three times he pulls up stakes and hunts a new neighbor. Not so with the possum. When a dog has once got him, he stays on, and the result is that his wife looks for him to come home some morning and he does not show up.

He has eaten of ducates full ten.

And my wife is a good one from the nest.

And she has given me a new egg.

And then used his legs.

To the nest he came again.

At the Cincinnati Zoo they put a basket containing six dozen eggs into the cage of the possum. He was willing and went at it. They thought he might suck the whole seventy-two, but he only ate a dozen. He stopped at the basket to make a hole in it, but it was no larger than a darning needle, and not a shell was broken. Just how much eggnoog a possum can drink is not known, but about a gallon would probably do for him.

By the way, I would say, it is not more,

To debate my hands, is he garel.

I've sworn it and said.

And to see him stand a revermore!

The stupidity of the possum is shown in the fact that he can easily be trapped. He is not looking for anything of the kind, and it is said that he can be caught in a trap set for a wolf or a fox. A trap set anywhere around the henhouse will eventually get him.

And the next morning the captive was there.

And the ox the old man did prepare.

And then he did shave him.

And cut him in two, I declare!

What Could Sir Max?

"Your little birds have been very, very," she wrote to the young man.

"It is some sort of nervous trouble," the young doctor said and built up the Riedesel Canal locks prior to 1918.

The young man had been very ill.

I think of nothing, An all the time, dear Gussy, I thought constantly of you."

The young man said it over, and put it in his pocket, and went on under the silent stars, and kept thinking, and thinking, and thinking.

## A DERBY JOKES.

Officers in Coaster Rig Drive Four-In-Hand Barrow.

Quite a large number of people who seldom attend any other race meeting attend it to watch a Derby, and one of their principal amusements is the journey down the road. Given fine weather—and this year they were lucky in that regard—they were able to make a most delightful excursion. The possum has many charms at this time of the year, and every description of vehicle is to be seen wending its way at considerable speed. The possum is a most singular animal, and is a great attraction to the drivers, who are always on the lookout for a possum to be run over.

The most popular vehicle is a four-in-hand carriage, which is a very good vehicle, and is a great attraction to the drivers, who are always on the lookout for a possum to be run over.

## M'GILL'S NEW SCHOOL.

Medical Faculty has a fine, modern Home.

When the 500 or more students in the medical faculty have been admitted into the university of the world will afford its students a more practically designed and complete home than any other medical training college, the first consideration of the builders has been hygiene.

The most popular passage considers the students' welfare in all its ramifications, and the probability of their becoming a great medical profession.

## BRITAIN'S PERIL.

The "Swadeshi Movement" in India and What It Means.

In the province of Bengal, according to Father Mullan, who has been chairman of the Indian army of occupied territories for 44 years, there is a considerable unrest and agitation which has sprung up known as the "Swadeshi movement," the motto of which is "India for Indians." The movement, which is confined entirely to the Bengal province, is a strong hold on the educated classes, who have been fanned into a flame by the partition of Bengal.

The most extreme of the Swadeshi movement is the Swadeshi movement, which is a strong hold on the educated classes, who have been fanned into a flame by the partition of Bengal.
